

XTERNAL SPRAY

Xternal Spray works naturally to relieve discomfort and pain. Spray where it hurts and rub it in. Results usually occur within minutes. Used by athletes and the elderly alike.

MYBB extracts a full spectrum of Cannabinoids (CBDs) to create its proprietary extract, CLX. CLX is infused into various treatment delivery systems including: Xternal Spray, Cream, Balm, Soak, Roll-On and Body Wash; as well as K9 Releaf Dog Wash and Dog Spray.

IT WORKS! HERE'S HOW:

Xternal Spray, like all Xternal topicals, is formulated to provide a high local concentration of Cannabinoids for targeted relief. Xternal Spray is made with all natural ingredients: ***Aloe Vera, Cannabinoids (CBDs,) Eucalyptus Oil, ACV, Amino Acids and Ethyl Alcohol.*** These ingredients are both beneficial to the skin and easily absorbed into the skin to quickly deliver pain-killing Cannabinoids directly to nerve endings that send pain signals to the brain.

XTERNAL vs PAIN PILLS?

Absorbed through the skin, Xternal topicals do not interact with drugs taken orally, with no known side effects or dosing issues. Cannabinoid topicals are not known to cause ulcers, constipation, GI irritation or addiction. Unlike opiates or even NSAIDS (aspirin, ibuprofen, etc.) there has never been one Cannabinoid-related death reported.

- MOST RECOMMENDED FOR:

- Arthritis and joint pain
- Inflammation
- Burns (sunburn, kitchen burns, rashes...)
- Back pain
- Headache
- Sprains
- Skin Irritation, cuts and scratches
- Neuropathic and diabetes-related pain

2 oz: \$ 15.00

8 oz: \$ 38.00
